

FOR FULL INSIGHT INTO PURCHASING
AND QUALITY MANAGEMENT

Allocation is a best of breed solution provider for strategic purchasing and supplier quality management.

We are privately owned and have been operating for over 20 years.

The entire procurement process beyond contract awarding of a product lifecycle is centralized & organized using our Supplier Management, Sourcing, Auctions and Collaboration modules.

The software is developed, distributed and supported in Munich and used by our customers (e.g. BMW, Siemens, Stadtwerke München, MAGNA and VOITH) as an integrated SaaS or on-premise solution.

Supplier Management

- ✓ Bring transparency to your supply chain data base
- ✓ Automate supplier operational processes to increase external and internal efficiencies
- ✓ Accelerate procurement processing and product life cycle times
- ✓ Gain greater visibility into supplier relationships and performance

Collaboration

- ✓ Transform your company's unique business processes
- ✓ Take advantage of this powerful workflow engines for systematic, transparent, documented & regulated internal and external communication

Sourcing

- ✓ Make intelligent strategic decisions having all information in one place
- ✓ Unlock sourcing opportunities with the best RFX solutions on the market
- ✓ Maximize sourcing results for your business with preconfigured templates and a simple, straightforward user interface
- ✓ This solution takes manual workload off your hands while delivering true values

Auctions

- ✓ Capture savings produced by this unique negotiation method independently, or benefit from our turnkey full-projects
- ✓ Manage the most complex and challenging negotiations in a dynamic, real-time manner
